A Peer Facilitator (PF) is a student staff member who works for the Program for Women in Science and Engineering (WiSE). **WiSE 201: Foundations in Development for Women* in STEM** is a course for students in STEM majors. The course focuses on leadership development, diversity, and other topics to help students persist and thrive in their majors. PFs serve as role models, mentors, and facilitators to students in the course.

PFs are required to attend class in the Fall 2024 semester on Tuesdays and Thursdays. PFs will prepare lesson plans and lead small group learning activities and discussions on Thursdays to a group of about 9 students (called a Nest). PFs are also required to attend a weekly planning meeting with the instructor (usually Monday at 4 or 5pm), work with a PF partner to plan Thursday activities, meet with students for one-on-one meetings, and grade all assignments.

Two sections will be offered in the fall. Your schedule should be open to accommodate either Section 1 (Tue/Thu 12:40-1:55pm) or Section 2 (Tue/Thu 2:10-3:25pm).

**Preferred Qualifications:**

- Undergraduate students  
  - majoring in STEM field ([https://www.wise.iastate.edu/about/stem-majors](https://www.wise.iastate.edu/about/stem-majors) for a complete list)  
  - maintaining above a 2.5 GPA  
  - sophomore or above
- Strong interpersonal communication skills
- Desire to learn about equity, diversity, and inclusion for women in STEM

**Required Training:**

Online Federal Educational Rights and Privacy Act (FERPA) training is required before interaction with students and student records. In-person and/or virtual online meetings/training sessions will be scheduled for summer/fall, as needed.

**Compensation:**

Peer Facilitators receive a salary of $12.00/hour and are paid for time spent for meetings, class, preparation, grading, and other duties.

Questions about the Peer Facilitator position or the application process should be directed to Beth Hartmann at bethlin@iastate.edu
