Where will I be staying?
Participants will be staying in Martin Residence Hall on Iowa State University’s campus. The rooms are double occupancy, so two students to a room, and share a bathroom with one other 2-person room.

What will I need to bring?
Check out our "What To Pack List" on our website at wise.iastate.edu/outreach/rise-with-wise.

Do students go on their own or do we need a guardian to go with?
Participants do not need a guardian. We will have undergraduate students and two staff members staying in the residence halls with the participants. We are following the University’s guidance regarding for events involving youth.

What will the program entail?
We will be highlighting STEM majors at Iowa State that have low female representation. Sessions will be shared on the website as we confirm them. Additional evening activities include exploring student campus life by doing things such as visiting the ISU Creamery, Cy Bowling, Reiman Gardens, and much more! Detailed agenda to be posted May 1, 2022.

Can I leave the program?
To ensure your safety, all participants must stay with the group throughout the whole duration of the program, Tuesday - Friday. Fun activities will be planned when there is not a presentation in session.
